EDUCATION

Full Stack Web Development Program

Masai School, Bengaluru
Feb 2022 - Nov 2022

Bachelor of Engineering in Computer Science

Trinity College Of Engineering and Research, Pune
Jun 2015 - Mar 2019

TECHNICAL SKILLS

JavaScript | HTML5 | CSS3 | Dart | Angular | React | Redux | Flutter | Node.js | Express.js | MongoDB | Firebase | Git | Amplitude | Material UI | Bootstrap

SOFT SKILLS

Effective Communication
Collaboration & Teamwork | Customer-Oriented | Prioritization

CERTIFICATIONS

Full Stack Web Development Program [🔗](#)

Zensar ESD Training program [🔗](#)

PROFESSIONAL SUMMARY

Frontend Developer with over 2 years of experience building fast, responsive web and mobile applications using React, Angular, and Flutter. Skilled in translating complex requirements into scalable, user-centric solutions with clean, maintainable code. Proficient in JavaScript, Redux, Node.js, and MongoDB, with a strong command of modern development tools and best practices. Known for clear communication and the ability to drive features from concept to deployment. Focused on delivering seamless digital experiences that make a measurable impact.

WORK EXPERIENCE

YourDOST Software Development Engineer

Dec 2022 - Feb 2025

Job responsibilities:

- Engineered responsive user interfaces for both web and mobile platforms using Angular, React, and Flutter, ensuring optimal cross-device performance and a 35% boost in user satisfaction.
- Revamped core sections of the platform, including the Home and All Experts pages, with React, resulting in a 25% improvement in user navigation efficiency and higher engagement.
- Designed and implemented an internal platform for counselors featuring real-time chat functionality powered by Firebase, enhancing communication efficiency by 40% and improving counselor-client interactions.
- Partnered with backend teams to define and integrate RESTful APIs, reducing data retrieval times by 30% and optimizing frontend-backend communication.
- Introduced comprehensive tracking using Amplitude, analyzing user interactions to drive insights that led to a 15% increase in new-user retention (from 60% to 75%).
- Created detailed documentation for features and development processes, enhancing team knowledge sharing and cutting onboarding time by 25%.
- Worked closely with UI/UX designers to iterate on design based on user feedback and analytics, contributing to a 20% rise in user satisfaction rates.

PROJECTS

What'sInMyFridge [🔗](#)

JavaScript | React | Redux | Node.js | Express.js | MongoDB | JWT | Bootstrap

Built FridgeRecipe, a smart recipe recommendation web app that reduced food waste by 30% by suggesting meals based on fridge inventory

- Developed a full-stack recipe app that achieved 95% user satisfaction with smart ingredient-based suggestions, JWT-authentication, and a custom algorithm, leveraging React, Redux, Node.js, and MongoDB.
